6 - In some cases, if applicable, an endorsement on a pressurised variant may be granted without additional training provided that the basic type endorsement is held together with endorsement on another pressurised type.

For example, the endorsement TS6(P) may be granted if the applicant held an endorsement on TS60 (Aerostar 600/601) and another pressurised aircraft type. These cases will be considered on an individual basis as it applies to the PNG Aircraft Register.

7 - Information relating to this AIC and PNG Aircraft Register should be directed to Flight Safety Regulation, Civil Aviation Authority of PNG.

8 - This AIC will be reviewed on 31 July 2004.
